Fletcher Thompson and its associated architectural firm, Tsoi Kobus & Associates, recently completed the design of a new eight-story 300,000 s.f. Ambulatory Care Center (ACC) with a 1,250 car parking garage at the University of Connecticut Health Center. As the focal point of a growing ambulatory care campus, the new facility will greatly enhance the environment of care and the efficient delivery of outpatient services at the Health Center.

The multi-specialty ACC will include the following clinical functions:

- Internal Medicine
- Geriatrics
- Neurology
- Surgery
- Dental Clinic
- Otolaryngology
- Urology
- Neurosurgery
- Ortho-spine
- Gastroenterology
- Infectious Disease
- Rheumatology
- Physical Therapy
- Invitro Fertilization
- Ophthalmology
- Diagnostic Imaging
